I am a passionate and driven full-stack developer with a passion for open-source and strongly typed programming languages. Doing my masters in algorithms at UiB alongside being a junior developer at Sbanken. I am a hobby project fanatic, there's always one to many project in my head. In my spare time I enjoy long runs, long evenings playing board games and a good beer.

EDUCATION

University of Bergen

2020–2022	Department of Informatics, Master of Science	Informatics - Algorithms
2017–2020	Department of Informatics, Bachelor of Science	Computer Technology

EXPERIENCE

Jun 2020	Summer intern, CAPRA CONSULTING, Oslo

2019	➤ Arranged an event for students where 12 companies came and shared their knowledge
	➤ Updated and developed the website written in React/JavaScript and hosted with GitHub Pages
	React JavaScript GitHub Pages

VOLUNTEERING

- | | |
|------|---|
| 2019 | Volunteer, JAVAZONE, Oslo |
| | ➤ Helped make sure the event ran smooth |
| 2019 | Volunteer, BOOSTER, Bergen |
| | ➤ Helped make sure the event ran smooth |

PROJECTS

GIT-IGNORE

Rust Git

 [sondr3/git-ignore](#)

Quickly and easily list and fetch .gitignore templates from gitignore.io, works on Windows, Linux and macOS.

GIT-ANGER-MANAGEMENT

Rust Git

 [sondr3/git-anger-management](#)

Have you ever wondered just how angry your co-workers and/or you are? Or just how naughty the commit log for a project is? This tool solves that problem.
